**REVISIONS**

LOGIN PAGE SECTIONS:

In the **main login page**, left bottom side remove Healthcare Innovation text replace it with "Dental Group"

In the **clinic portal login page** Remove Reset Password Modal Form,, Generating Temporary Password is unnecessary (Only admin will assign what will be the password)
They can change it inside the clinic portal but their profile appears mirror to the admin control room.

In the **Cardlook up** Search Bar remove Im feeling Lucky Button.

**Inside Admin Control Room : Masterlist Tab : CLINIC SECTION LIST**
Everything is good and working just add a CRUD Button to reveal the username and password of the clinic. For emergency purposes that clinic forgot the password assigned to their login details. Admin can provide.

INSIDE ADMIN CONTROL ROOM : APPOINTMENTS TAB IS NOT WORKING
Created Manual Appointment does not reflect and deliver to the chosen clinic portal.

Clinic portal appointment tab also not working.

ADMIN CONTROL ROOM : DASHBOARD
CLINIC PORTAL : DASHBOARD

REVENUE DATA ANALYTIC is not important . We may remove it.

Today's Patients	Pending Appointments	Pending Perks	Revenue (PHP)
12	0	0	₱15,600

INSIDE CLINIC PORTAL : ASSIGNED CARDS

When a certain control number is clicked within the assigned cards list.. It should toast a modal form or appear on a card page with CRUD allowing the clinic admin to check and uncheck what perks are being redeemed. And these changes mirror to CARDLOOK UP displaying out 5 perks how many are LEFT.

Control Number	Patient Name	Status	Perks Available	Expiry
MOC-01001-4A-CVT002	Patient 1001	active	5/5	12/31/2025
